Our bot can automatically detect  
any virus links right after they  
are sent out by someone. Then, our  
bot will warn users about the links,  
and ask them to report and block  
the sender.

The link

<http://bitly.com/2v748qp>?

Daniel

is likely a virus link

Please report it

~John

Hi are you interested in earning a lot  
of money?

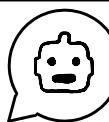

Me  
Yes, I am!

~John

Great to get started we need you to transfer  
RM 100 to this bank account. In return,  
you will receive 20% return

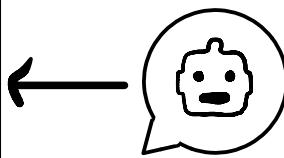

Me

Okay give me your bank account

WHIZBOT

You have a new notification

# WHIZBOT

We have detected that you have recently been added to a suspicious group

Part time job groups have recently have been popular for money scams. Please be careful!

Our bot sends out alerts to users to be aware on the latest scams. It uses AI technology to study and analyse the pattern in the chats

We would suggest you to leave and block the group if you are unsure if it is legit

Our bot provides suggestions to help users in decision making
